STATION · NEELAM PLATFORM, MUMBAI HIGH, ARABIAN SEA

Supply, Installation and Commissioning of Lifeboats, Neelam Platform

For the Oil and Natural Gas Corporation Ltd Bassein & Satellite Asset, SOLAS MODU Marine Services supplied, installed and commissioned two lifeboats on the Neelam Platform in the Mumbai High field of the Arabian Sea. The scope covered the full delivery cycle, from supply of the boats through installation and commissioning on the platform.

The installation was originally executed in 2015, with the boats fitted and commissioned in position, and the project was formally closed in 2021 with the work complete. The installed boats form part of the platform's life saving appliance arrangement, and the engagement is recorded as a completed survival systems project.

SERVICES PERFORMED

- Supply of two lifeboats
- Commissioning on the Neelam Platform
- Project closure documentation
- Installation on a fixed offshore platform
- Survival systems project delivery
