NDT and Thickness Measurement on an Offshore Drilling Rig

SOLAS MODU Marine Services carried out non-destructive testing and thickness measurement on an offshore drilling rig for Pipavav Defence and Offshore Engineering Company Ltd (PDOECL) at Pipavav, Gujarat. The scope covered the NDT examinations and thickness measurement specified by the client for the unit.

Examinations were performed to the client's requirements, with results recorded and reported for evaluation. The Work Completion Certificate issued for the project states that the work was performed to the satisfaction of PDOECL requirements. The engagement was completed in 2014 and stands on file as a completed rig inspection reference.

SERVICES PERFORMED

- NDT of an offshore drilling rig
- Examination to client requirements
- Work completion reporting
- Thickness measurement surveys
- Results recording and evaluation
